Subject: Water Monitoring Modification, Canyon Fuel Company LLC, Skyline Mine,  
C007/0005, Task #3897

Dear Mr. Sorenson:

The above-referenced amendment is conditionally approved upon receipt of 8 clean copies prepared for incorporation. Please submit these copies by November 4, 2011. Once we receive these copies, final approval will be granted, at which time you may proceed with your plans.

A stamped incorporated copy of the approved plans will also be returned to you at that time, for insertion into your copy of the Mining and Reclamation Plan. This modification does not necessitate an update to the Technical Analysis.

It was also noted during this review that the UPDES permit found in Exhibit 2.3-1 is out of date. The Permittee is not required by the Utah Coal Rules to provide a copy of the UPDES permit in their MRP and therefore, the Division recommends removing this exhibit from the MRP.

If you have any questions, please feel free to contact April A. Abate at (801) 538-5214 if you have any additional questions.

Sincerely,

Daron R. Haddock  
Permit Supervisor
